Phytochemistry

Chemistry Biochemistry Molecular Biology

The Official Journal of the
Phytochemical Society of Europe and the Phytochemical Society of North America

Regional Editor for: UK, Africa, The Commonwealth & Rest of the World,
G.P. Bolwell, *School of Biological Sciences, Royal Holloway, University of London, Egham Hill, Egham, Surrey TW20 0EX,*
Regional Editor for: The Americas & East Asia
N.G. Lewis, *Institute of Biological Chemistry, Washington State University, Pullman, WA 99164-6340, USA* and
Regional Editor for: Continental Europe & Russia
D. Strack, *Institut für Pflanzenbiochemie, Abt. Sekundarstoffwechsel, Weinberg 3, D-06120 Halle (Saale), Germany*

Phytochemistry covers research on all aspects of plant chemistry, plant biochemistry, plant molecular biology and chemical ecology. The journal is divided into eight sections: Review Articles; Protein Biochemistry; Molecular Genetics and Genomics; Metabolism; Ecological Biochemistry; Chemotaxonomy; Bioactive Plant Products and Plant Chemistry (including Macromolecules). In addition to the regular (primary) issues of the journal, there are special issues dedicated solely to Structure Elucidation.

Heterocycles

An International Journal for Reviews and Communications in Heterocyclic Chemistry

Editor: **K. Fukumoto**,
The Japan Institute of Heterocyclic Chemistry, 1-7-17, Motoakasaka, Minato-ku, Tokyo 1070051, Japan

Since its inception in 1973, ***Heterocycles*** has provided a platform for the rapid exchange of research in the areas of organic, pharmaceutical, analytical, and medicinal chemistry of heterocyclic compounds.The journal publishes reviews, communications, reports and original papers.

Each issue of the journal contains a special section. This will either be a list of new natural products with a heterocyclic ring system collected from current literature, or a list of such compounds whose total synthesis has been reported.

The journal publishes articles within two months of receipt of the manuscripts. Researchers in this field can thus obtain up-to-date information on heterocyclic research by reading ***Heterocycles*** regularly.

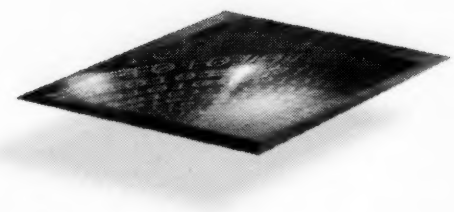
Choose from broad collections of primary journal literature and powerful secondary databases, all deliverable via the Internet or your local Intranet—building blocks for the digital library you need.



SCIENCE DIRECT®

For the Digital Library You Want

ScienceDirect offers desktop access to over 1 million articles published in nearly 1,200 journals spanning 16 fields of science and provides researchers with some 2 million bibliographic citations and abstracts. Access may also be provided to an additional 30 million abstracts via ScienceDirect's secondary databases.

Unprecedented content, navigability and customization options
Whether you choose the breadth of the ScienceDirect multi-publisher platform or one of our discipline or industry-focused solutions, you'll be providing your institution with a dynamic, efficient and integrated solution to access the world's critical STM literature.
